- Each field will be described in the following sections.
- | Columns | Description |
|---------------|--|
| Item Uid | The unique Uid of the item |
| Description | The description of the item Uid. If the description contains <Unknown description - see parent form> it means that the module could not detect the description and you will have to look at the parent form manually to figure out what the item is. |
| Add mode | Should read only be enabled for this item in add mode |
| Ok mode | Should read only be enabled for this item in ok and update mode |
| Find mode | Should read only be enabled for this item find mode |
| Users | Here you have the option to make your configurations user-specific |
| User settings | Should the users be included or excluded for this configuration |
