Use Mandatory Contact Person

This option makes it mandatory to have at least one Contact Person on a Business Partner. You have the option to select if it should be a Warning (prompt) or an Error (block).

The screenshot shows the 'Business Partners Master Data' form. At the top, there are fields for 'Code', 'Name', 'Partner Name', 'Group', 'Currency', and 'Partner Type ID'. Below these are several tabs: 'General', 'Contact Persons', 'Addresses', 'Payment Terms', 'Exported Data', 'Assignments', 'Properties', 'Accounting', and 'Highlights'. The 'Contact Persons' tab is selected, showing a table with columns for 'Status Name', 'First Name', 'Last Name', 'Address', 'Telephone 1', 'Telephone 2', 'Mobile Phone', 'Fax', 'E-mail', and 'Other'. There is a 'Set as Default' button at the bottom left and an 'Add' button at the bottom right. A red error message is visible at the bottom of the form: 'X Contact person is mandatory'.

As you can see on the screenshot you are not allowed to continue if you set "Use Mandatory Contact Person" to enabled and select Error.
