BOM Item Navigation

[\[See a video of the feature\]](#)

BOM Option Navigation allows you decide how Golden Arrows in SAP react when they are linked to a Bill of Materials Item. The SAP default is to go to the Bill Of Materials screen no matter what.

NB: This feature only works on standard SAP SDK Golden Arrows. It can't react to Golden Arrows on the Fiori Cockpit, B1 Dashboard, SAP Enterprise Search, B1 Search and Golden arrows in Crystal Reports

BOM Item Navigation

SAP Default (Always navigate to BOM)

SAP Default (Always navigate to BOM)

Go to BOM (CTRL + Item Master Data)

Go to Item Master Data (CTRL + BOM)

Instead of this default behavior, this feature allow you to have 2 different option:

- Still go to Bill of Materials on a normal click but instead go to the Item Master Data if the keyboard key CTRL is pressed while clicking on the Golden Arrow
- Default always go to Item Master Data Screen and only offer SAP default navigation then CTRL is pressed
